LRC Meeting to Focus on ASL Assessment

Learning Resource Center Director Judy Cass has announced plans for an open meeting to be held in Alumni Hall Auditorium November 12th, 2-3 and 3-4 pm. ASL Teacher David Geeslin, recently named to spearhead assessment development at ISD, will discuss his role and plans for the program. Ann Reifel and Brian Brizendine will discuss an interim staff development program for ASL skills for this school year. Further developments will be posted in the Campus Bulletin.

School Calendar Error

The 1993 CSSD Basketball Tournament will be held at the Ohio School for the Deaf, January 27th - 30th, 1992. The dates are right on the school calendar but the location is wrong. Please correct your calendars.

BIBI Thought for the Week:

"You ask, 'If any language helps learning, why not sign in English word order - surely this will encourage students to improve their writing ability.' I agree that English is important, but signing in English order will not do the trick. After all, many hearing people in America are illiterate. Listening to English all day did not do them any good. Why then, would watching signed English all day be any different?"

Kathy Jankowski

The ISD Campus Bulletin is published weekly throughout the school year.

Elementary Fundraiser Reminder

Elementary Computer Lab Teacher Elizabeth Foster has been informed by Marsh Grocery Stores that, as a part of their continuing "Computers for Education" program, special double-value pink grocery receipts will be issued at all area Marsh stores November 2nd - 15th.

Save those receipts!

Athletic Department Kudos

The Vocational Print Shop - Maynard Steinberger, Carrie Hendrickson and Dave Morphew for their long and dedicated hours on the program books for both Homecoming and the CSSD Volleyball Tournament. They are appreciated!

Thanks to Robert Wilson for videotaping these special events.

A big time thanks to Beth Ann Mahoney and the cafeteria staff who constantly provided wonderful hospitality and great food to all of our guests. The hospitality room for CSSD was a perfect example of "Hoosier Hospitality."

Gracie Scisney and the rest of the housekeeping staff who kept Caskey Hall clean and bright throughout all the activities - their hard work and dedication are appreciated.

A round of applause to Debbie Fetzer and the Student Development Center staff for smooth and flawless social events during Homecoming and the CSSD Tournament. Everyone appreciates them!

Thanks to Yvonne Catt and Jonas Fenicle for assistance with housing and making sure the smallest needs were met (the laundry soap was a real blessing).

Thanks to the Health Center staff who worked long hours being available should anything come up...ISD appreciates how much they care.

Special thanks to Sharon Baker and the cheerleaders for all those extra special signs and cheers of encouragement. You do so much for ISD! We will remember the Homecoming Pep Rally for a long time - it was a stroke of genius and truly wonderful for everyone to see.

And finally, the biggest thanks to Judy Evans and all of the tremendous volunteers. Without her ISD would not have been able to produce such well-organized and smooth events.

Thanks to Nancy Hardwick, Bob Canty, Jesse Blackwell, Steph Kent, and Becky Painter for working the football game Friday night between Ritter and Park Tudor.

Management Rules Changes

As a result of changes in State Personnel Rules, the following will be effective for all employees of the Department of Health as of October 8th, 1992:

Employees will accrue an additional sick day each time they accrue a personal day. This will result in the accrual of three additional sick days per year for a total of nine sick days accrued per 12 months of service. The additional sick days should appear on employees' pay stubs beginning October 21st, 1992.

Sick leave may be used for an illness or injury in the employee's immediate family which necessitates the employee's absence from work. Immediate family for this purpose means spouse, child, or parent who resides with and is dependent upon the employee for care and support.

LRC Materials Room 225

ISD Learning Resource Center Director Judy Cass said recently how exciting it is to see many ISD staff members using the curriculum materials in the Learning Resource Center! Besides student literature books, the center has manipulatives for health and sex education, posters and charts for elementary social studies (Native Americans), videotapes, resource books and magazines for teachers. Due to lack of space in Alumni Hall Room 225, many resource books for teachers are stored in LRC Director Judy Cass's office, Room 229.

Currently the LRC receives the following magazines that may be checked-out:

<i>Teacher</i>	<i>Educational Leadership</i>
<i>Science News</i>	<i>Journal of Reading</i>
<i>The Reading Teacher</i>	<i>Deaf Life</i>

NOTICE!!! When checking out any materials, please use the pad of paper specifically designated for this purpose. Include name, the title or name of the books, magazines and/or other materials, and the date.

When returning materials, put them on the designated table, using the same pad of paper as above, find borrower's name and enter the date of return.

Many of patrons are leaving notes with stacks of books when returning materials, or leaving lists on the desk when taking books. Without a secretary in the office, notes are separated from books and record keeping is very confusing. Therefore, please follow the instruction above. The LRC wants to see more staff using the materials. Cass encourages staff members to "share suggestions for materials you would like to have us order, let me know and I will do my best to provide. Hopefully, when ISD gets a secretary in the LRC office, a delivery system can be set-up which will help many of you."

Teen Institute Thanks ISD

Midwest Teen Institute for the Deaf Director Pat Cassidy and Planning Assistant Suzi Guimond wish to express their appreciation for ISD's support for the Institute.

Staff Development

Black Deaf Culture Workshop — This workshop is being held at the Deaf Club on Saturday, November 7th, 1992 from 8:30 am - 3:00 pm. It is free, but space is limited to the first 200 to register. Registration forms are available on the Staff Development bulletin board.

Free Environmental Workshop — ISD staffers Carol Keller, Eileen Pezzutti, Toni Wolfe and Toni Young all attended an Environmental Workshop that was announced several weeks ago in the CB. They came back with such wonderful materials that seven more staff from the Elementary Department signed up to take the workshop. Clean City of Indianapolis, the organization sponsoring the workshop, was so impressed with the response from our staff that they have agreed to do a workshop on the ISD campus just for ISD staff. It will be on November 18th, 1992 from 3:30 - 7:30 pm. A light supper will be provided. Participants will leave the workshop with 20 lesson plans and a great deal of hands-on experience. Please contact Mary Alice Moon to join this very exciting experience. The location of the workshop will be announced in next week's CB.

Aerobics Class — Staff Development Coordinator Mary Alice Moon has someone ready to teach an aerobics class if there is enough interest. Kathleen McNeil, the aerobics teacher, will charge \$15.00 for six weeks of classes. Classes will meet Tuesdays from 4 - 5 pm. The first class will be on November 10th, 1992. Bring in the coupon at the end of this week's Campus Bulletin to receive a \$2.00 discount. To join the class, please contact Mary Alice Moon, Coordinator of Staff Development, as soon as possible. It would be great to get this class started by the end of the month.

Free ASL Classes — Vincennes University is offering space in their morning ASL classes to ISD staff members. Those attending classes at no charge will receive NO college credit. Eligibility for the free spaces will be determined by the Dean of Students. Classes start January 11th, 1993, and end the week of May 3rd. The morning classes for the Spring, 1993 semester are ASL II, ASL III, and ASL IV. To enter any of these levels, the students must be screened for appropriate skills. This screening is done by the VU staff. For specific information, please contact Dan Fitzpatrick, Dean of Students, or Mary Alice Moon, Coordinator of Staff Development.

The next *Telecommunication Inservice* will be on Roles/Responsibilities of General Education Teachers in: M-Team Assessment, Eligibility; Case Conferences

It will be held at Beech Grove High School in the Auditorium on November 12th, 1992, from 9:30 - 10:30 am. Please contact Mary Alice Moon if you plan to attend.

A series of environmental programs is being sponsored by the Indiana Humanities Council November 6th and 7th in Indianapolis. The free, public programs, WORDSTRUCK: Imaging Nature, will deal with land and how humans relate to it.

Four authors of nature-related books will share their experiences with the audiences during the sessions. This provides an opportunity for teachers interested in science and environmental issues to access another dimension of creativity in that area. For more details, see the Staff Development bulletin board.

Notes from the Health Center:

MONONUCLEOSIS: Facts and Figures!

Infectious mononucleosis, caused by the Epstein-Barr Virus, typically is manifested by fever, sore throat, and swollen glands. The spectrum of the disease is extremely variable.

Infections may go undetected in young children, whereas in older children and adults the signs and symptoms are more common. Infection may also be accompanied by a rash. The incubation period is estimated to be from 30-60 days. The virus can be excreted for many months after infection and 15-20 percent or more of healthy adults are carriers. Therefore, the period of communicability is not determined. The organism usually is spread by direct contact with infected saliva, therefore called the "kissing disease." Persons with "mono" can attend school unless prevented by the severity of their symptoms. There is no specific treatment for mononucleosis and its occurrence is worldwide. In the U.S. the typical signs and symptoms are more likely to be seen in older, high-school and college aged youths. A month or more of rest may be required before an infected person can fully resume normal activities. Participation in sports may be restricted.

Library Catches Election Fever

The presidential election is drawing near and ISD's libraries have turned into "campaign headquarters." Balloons, along with red, white and blue streamers illustrate the libraries' timely theme - *Elect to Read*. A variety of reading activities will be offered and a mock election, complete with ballot box, will be held. Bookmarks and balloons will be presented to all students who participate in the reading program.

Library Closing Reminder

The library will be closed all day on Friday, November 6th while ISD plays host to a statewide meeting of the State Institutional Librarians.
